EDITORIAL

Thirteen million hits!

Marilene Crispino Santos[1], Clemax Sant'Anna[1]

It is with immense satisfaction that we celebrate a historic milestone in the history of *Pediatric Residency*: in June, our portal surpassed the incredible milestone of 13 million visits, reflecting the growing engagement of pediatricians, researchers, and healthcare professionals, not only in Brazil but also around the world. This result highlights the relevance of the topics we cover and reinforces our journal's position as a reference for those seeking cutting-edge and reliable information in the pediatric field.

Following this milestone, we are proud to announce the adoption of the *CrossMark seal* across all our publications. With it, we ensure that each article remains up-to-date and transparent, immediately informing readers of corrections, retractions, or important additions. This initiative reaffirms our unwavering commitment to editorial quality, rigorous peer review, and the scientific ethics that guide every page we publish.

And, because innovation is part of our DNA, we also launched the Pediatric Residency *videocast series*: dynamic episodes in which we bring interviews and analyses on the most current topics in the pediatric world directly to professionals' screens. Through this multimedia format, we bring specialized knowledge even closer to clinical routine, expanding the possibilities for learning and discussion.

We deeply thank each author, reviewer, editor, and reader who has joined us on this journey of excellence. We will continue investing in technology, international partnerships, and interactive formats so that the *Pediatric Residency program* continues to inspire scientific advancements and strengthen the pediatric community in Brazil and worldwide.

Get ready, because a new chapter has already begun!
